Cool House, Trustworthy, No Worries

New

Capsule Ventilation
protection

Wood Grain Ventilation
protection

Lining Ventilation
protection

Half Lining Ventilation
protection

Size: 60 x 120 x 0.4 cm.

- **Protect your house from insects and small animals**, ensure that the fiberglass net is heat-humid-resistant, and ready-made from the factory.
- **Keep your house temperature down** because of the ventilation holes which expel hot air out of the attic.
- **Save time and cost** by installing with regular installation method but one day* faster and 20%* cost saving because of ready made net that solves the manual net installation problem.

*Remark: Comparing with a 60 sq.m area.

Net attaching behind the board
